DELIVERIES

Deliveries

- Deliveries will generally be made between 7am and 6pm Monday to Friday (excluding bank holidays). Most deliveries are made by our own fleet of vehicles. On occasions we may use carefully selected external carriers to carry out your delivery; and will always use these carriers in Ireland and Scotland.
- Our home deliveries team will contact you by telephone to arrange a date and time. To assist us in making contact, where possible, please provide two contact numbers when placing your order. If we have been unable to contact you by phone, we will write to you requesting a call back. To avoid any unnecessary handling of your products and possible additional charges we will not deliver to you unless our Home Deliveries team have been able to speak to you to confirm a date.
- We will endeavour to deliver at the agreed time; however, we cannot guarantee delivery dates and times as these may be affected by circumstances outside our control. We will do our best to contact you if we are forewarned of delays. For this reason we are unable to accept responsibility for lost working time and recommend goods are ordered well in advance of any project start dates.
- Should you need to cancel or postpone your delivery, please contact our Home Deliveries team on 01295 814313. If we are unable to gain access to the agreed delivery address at the pre-arranged time and date we will return the goods to our warehouse and make contact with you to re-arrange delivery. In these circumstances we may have to charge you a further delivery fee. Should we have to store your packed order for a period of time because you are no longer able to accept delivery, we charge a fee of £25 per week up to a maximum period of three months. After this time, the order will be returned to stock and a cancellation fee

levied against any refunds due.

- Please check dimensions of products carefully before placing an order to ensure larger items fit through doors and around stairs etc. Our delivery teams will do their best to assist you, but will not be able to remove doors and windows or carry out deliveries where damage to your property is likely.
- In some circumstances our driver may require your assistance to offload the delivery.
- Once delivered, please check your products carefully. Any problems with the order should be reported within 7 working days of receipt. If products are considered by you to be faulty or defective after the 7 day period has expired please contact us for consideration of your query.

Furniture Deliveries

- When delivering furniture, our delivery team will unpack and assemble your furniture if required. Wherever possible, please inspect the furniture whilst the delivery team is on site. If any damage exists, we will remove the item immediately and arrange a replacement for you. We regret we are unable to install products for you.

Express Delivery

- Express delivery can be arranged for most of our products (excluding furniture and some bathroom products). There is an additional charge for this service and we can provide you with an estimate at the time of order. These deliveries are usually made using external carriers and for this reason will only be dropped at the nearest access point to your property. We strongly recommend that you use our standard delivery service if your order is heavy, you have no assistance at the delivery address, or if access to the property is difficult.

Standard Delivery Charges

- Please see the table for delivery charges.

Our sales team will be happy to advise you on the weight of your order so you can identify which charging band applies.

- Please note, these standard delivery charges apply to most products delivered within the UK Mainland and are based on deliveries being made to the nearest access point.

Additional Delivery Charges

- We are happy to arrange deliveries to UK islands, there will be an additional charge for these areas. Our sales teams will request an estimate for this service at the time of ordering. Please note we may need to obtain quotations from carriers which can sometimes cause a small delay in confirming a price. For export orders please contact +44 (0)1295 814315.
- We are happy to assist you with special deliveries i.e. deliveries above the first floor, those requiring a small van for access or products requiring more than a two man lift. Please discuss this with the sales team who will be able to advise if additional charges are likely to apply.

Please refer to our full Terms and Conditions available from our stores or by calling 0845 366 0400.
